

Foróige Pride 2026

How to print out stickers from an office printer in 3 easy steps.

Step One: The Paper

- Any full page labels will work
- These can be bought in most office supply stores and are available on Amazon (https://www.amazon.ie/gp/product/B0CCJKSJH5/ref=ox_sc_act_title_1?smid=A2QHQAREJ10JUJ&th=1)

Step Two: Feeding the paper into your printer

- Test first by drawing an x on a regular piece of paper and printing a test page to see which way up the sticker paper should be.
- Usually the peel off side is loaded into the paper tray face up.

Step Three: Print and cut out your stickers

- Now all you have to do is assemble the images/words you want to make into a sticker on a Word Doc/Google Doc and print them like you would any document and they are ready!

Some Pride Stickers you could download and use:
